## MODERN COLLECTIONS

Modern design is linked to the mid-20th century, with roots in both German and Scandinavian Styles, where a sense of simplicity and clean lines is included in every element of the interior décor. Throughout the years, while gathering experience, Castro Lighting has been taking advantage of its proficiency in brass-work, developing more up-to-date and fresher designs each year, and expressing its own idea of modernity, elegance, functionality, and versatility.

Aiming to provide professionals with innovative modern designs, the collections get a twist with a fresh classic tone that mixes minimal textures and bold geometric forms with polished finishes and asymmetrical balance.

The choice of luxurious finishes and selected materials along with Swarovski Crystals introduces an unforgettable signature of inspiring effortless luxury collections for modern interiors.

## MONDRIAN

Piet Mondrian is recognized for the purity of his abstractions, as he radically simplified the elements of his paintings to reflect his perception of the world as opposites and asymmetry. This painter's unique artwork moved the designers to develop the Mondrian Collection. Composed of geometrical squared shapes and cascading Swarovski crystals, this is an interpretation of dynamism and elegance.

## MONDRIAN LIFESTYLE COLLECTION

Piet Mondrian is recognized for the purity of his abstractions, as he radically simplified the elements of his paintings to reflect his perception of the world as opposites and asymmetry. This painter's unique artwork moved the designers to develop the Mondrian Collection. Composed of geometrical squared shapes and cascading Swarovski crystals, this is an interpretation of dynamism and elegance.
